**Reported on 31.08.2020 to Human Rights Observers by a displaced person living in Calais.**

We're in Europe, facing a difficult life. All of this, to live in dignity. But we can find peace in Europe. We risk our lives to reach Europe, because our country is under conflict and war. We couldn't find peace in our country as well, that is why we emigrated to Europe.

We thought: maybe could we find peace in Europe? But we didn't see any of this! We're facing the biggest war in Europe, racism, fascism, our country is at war, and Europe is at fascist war. We've never thought that one day we'd arrive in Europe and face that situation. We are immigrants, we live in France, in Calais region, France didn't accept us, that is why we try to get into England. All of this for a better future. I wish and hope you can help me in this situation.
